"Each day be reminded that you are a force of love."

'And Then There Was Heaven'
Roland Comtois

A compelling and inspirational speaker, Roland has captivated audiences worldwide with his uncanny ability to connect with the spiritual realm, sharing personalized messages that have the power to heal the soul.

Roland first realized his life's calling at the age of ten with an unforgettable other worldly visit from a trio of angels and his departed grandmother after she passed away. It was just one of many life-changing events that guided him on his preordained journey as a spiritual medium. From that day forward, intuitive visions, angelic visits and heavenly encounters became everyday occurrences for Roland, encouraging him to use this gift as a healing modality for the benefit of others.

Roland began his professional career in healing as a gerontology nurse, where he ministered to persons nearing the end of their journey on earth. Blessed with abundant spiritual compassion and unwavering faith, Roland ably assisted departing souls with their transition to the other side. Subsequent studies and practices in the art of Reiki, combined with expertise personal channeling, expanded a growing international clientele and provided wide-spread recognition for his Workshops, Reiki Master Training and Spiritual Seminars, each of which sells out well in advance.

Captivating Audiences with his Dynamic Presentation!

Roland's following includes a global audience of all faiths and ages who look to him for affirmation that love is eternal and heaven exists. Through Roland, thousands of people who have lost loved ones have received intimate and accurate communication from their departed families and friends. This is a strong offering of hope and healing for deep grief.

For more than ten years now, Roland has been hosting the Living Beyond Loss Conference. He founded the conference to inspire and empower others through love and compassion. He offers the public an opportunity to join him in discussions about spiritually guided topics, experiencing his Mediumship and receiving Reiki from some of his many students.
